Omar Hazeem

Agentic Business Analyst

omarhazeem2005@gmail.com | +961 71829730 | linkedin.com/in/omar-hazeem

Career Objective

Agentic Business Analyst bridging clients and development teams to deliver software that meets business needs, using AI at every step of the requirements lifecycle. Skilled in requirements elicitation and As-Is / To-Be analysis, producing clear BRDs, RTMs, Minutes of Meeting and workflow diagrams, and managing delivery and test cases through Azure DevOps. Captures sessions with Wispr Flow, structures documentation with Claude, and prototypes solutions with Claude Code and MCP before build. Computer Science background and seven Anthropic certificates that strengthen collaboration with technical teams.

Skills

- **Business Analysis:** Requirements Elicitation, Proposal Reading & Analysis, Requirements Traceability Matrix (RTM), MOMs, BRDs, Use Cases, User Stories & Acceptance Criteria, Gap Analysis
- **Agentic AI:** Claude, Claude Code, Model Context Protocol (MCP), AI Agents, Prompt Engineering, Generative AI & LLMs, AI-Assisted Prototyping
- **AI Productivity:** Wispr Flow (meeting capture & voice drafting), Claude for MOM, BRD & RTM drafting
- **Workflow & Modeling:** Application Workflow Diagrams, As-Is / To-Be Process Flows, Swimlane Models, User Journeys
- **Tools & Platforms:** Azure DevOps (Boards, Repos, Pipelines), Liferay DXP
- **Testing:** Functional Testing on Liferay, UAT, Defect Tracking
- **Soft Skills:** Communication, Stakeholder Management, Workshop Facilitation, Teamwork, Time Management, Problem-Solving

Experience

Netways – Business Analyst **March 2026 – Present**

- Lead requirements-gathering meetings and As-Is walkthroughs with clients to capture business needs, pain points and business rules, and translate them into clear, actionable documentation.
- Capture client sessions with Wispr Flow and use Claude to structure them into Minutes of Meeting, decision logs and action items, reviewing every line before issue.
- Analyze client proposals and prepare detailed BRDs and RTMs that trace each requirement from the client's words to delivered, tested functionality.
- Design As-Is and To-Be workflow diagrams to align stakeholders and development teams, and prototype solutions with Claude and Claude Code to validate direction before build.
- Collaborate with developers throughout the build to verify that delivered features meet documented client requirements.
- Manage requirements and backlogs in Azure DevOps, and author and execute test cases to validate delivery against acceptance criteria.

Netways – Business Analyst Intern **December 2025 – February 2026**

- Joined client meetings and helped prepare BRDs, RTMs, and MOMs, building hands-on experience in requirements documentation and analysis.
- Created workflow diagrams and tracked requirements in Azure DevOps, performing successfully enough to transition into a full-time Business Analyst role.

Education

Lebanese International University (LIU) **2023 – 2026**
Bachelor's Degree in Computer Science and Programming

Hrar Public High School – Hrar (Akkar) **2020 – 2023**
Lebanese Baccalaureate – General Sciences

Certifications

- **Anthropic:** Claude 101 — **October 2026**
- **Anthropic:** Claude Platform 101 — **October 2026**
- **Anthropic:** AI Fluency for Builders — **October 2026**
- **Anthropic:** AI Fluency for Creative Work — **October 2026**
- **Anthropic:** Deploying Claude Enterprise with Confidence — **October 2026**
- **Anthropic:** Claude Code in Action — **August 2026**
- **Anthropic:** Claude Code 101 — **August 2026**
- **GreatStack:** JavaScript Fundamentals — **August 2025**
- **Cisco Networking Academy:** CCNA Industrial — **March 2024**
- **Cisco Networking Academy:** Get Connected — **December 2023**
- **Alison:** Introduction to Office 365 — **October 2023**
